Signature of Resident Applicant \_\_\_\_\_ Date \_\_\_\_\_

**One-page Research Proposal must be submitted  
with the completed application for consideration.**

Northeastern Society of Orthodontists

## ***NESO Resident Research Sponsorship Program Terms***

It is a primary objective of NESO's formal Mission Statement to "Encourage and Sponsor Research." This program will serve to further enhance and encourage a collaborative relationship between NESO and the Orthodontic Training programs in our region while awarding and supporting residents in training.

This program will operate with the following with the following parameters:

- NESO will make three monetary awards, of \$4,000 each, annually.
- Funds will be awarded directly to Residents in Orthodontic training programs within the NESO constituency Boundaries.
- Funds are to be used for research purposes only and not for travel.
- Applications for awards will be submitted by Orthodontic Program Chairman or Program Director and will consist of a one-page research proposal describing the overall project, aims and methodology.
- NESO will accept up to three (3) submissions from each program, however, there can be only one winner from any given program.
- Research proposals may be either basic science or clinical, but must pertain to orthodontic.
- Proposals will be reviewed by a NESO Resident Research Award Committee.

The committee will consist of faculty members from three (3) different Orthodontic Programs within the NESO boundaries, appointed by the NESO President. (Committee members will recuse themselves from evaluating proposals from their own programs.) Programs that receive an award cannot compete for two (2) cycles after the award to facilitate the distribution of funds to the majority of programs.

- The Resident Award recipient will be required to present their findings at a future NESO meeting.
- Submissions for awards will be accepted with a June 1 deadline.
- Awards will be announced to Programs and Residents on August 1.
- With an annual evaluation and report from the Research Sponsorship Program Task Force Sub-Committee to the BOD Annual Meeting.

Residents may apply for an award by submitting an application and one-page research proposal by June 1, 2017. No proposal applications will be accepted after the deadline.
