For more plan options, check out [Zoom plans and pricing](#).

GETTING STARTED

1. [Download the Zoom desktop client](#) for Windows or Mac
2. Create an account and sign in. After you activate your account, you will receive your personal meeting URL and start a test meeting. NOTE: You can skip the test meeting step. Instructions for joining a test meeting are in the next section.
3. When you sign in, you will be taken to your home tab where you can [schedule or start an instant meeting](#), join a meeting in progress, see any meetings scheduled for the current day and access your profile and settings.

ATTENDEE CONTROLS

- Once in a meeting you will be able to access the controls. Simply move your mouse and they will appear at the bottom of the screen.
- If you want to practice, [join a test meeting](#).
- For more information on [host controls](#) which allow you to manage participants, [watch this 10-minute video](#). [Managing participants](#) allows you to mute/unmute attendees, start or stop recording, [invite others](#), [create a poll](#), and share your screen as well as restricting/allowing screen sharing by participants.
